EDUCATION

- Indian Institute of Technology Jammu** 2026 – 2028
M.Tech in Communication and Signal Processing, Department of Electrical Engineering CGPA: -/10 Jammu, India
- Indian Institute of Technology Jodhpur** 2025 – 2026
Master of Technology (M.Tech) Jodhpur, India
- University of Lucknow** 2021 – 2025
B.Tech in Electronics & Communication Engineering CGPA: 7.37/10 Lucknow, India

EXPERIENCE

- BunkYard** 2025 – Present
Founder & Solo Developer Jodhpur, India
 - Founded a campus lifestyle brand and built its full-stack e-commerce system, processing 200+ orders to date.
 - Integrated Cashfree PG and engineered automated order-processing workflows and email status systems.
 - Orchestrated technical operations and collaborated with sourcing and delivery teams to expand to multiple colleges.
- MyDiary.page** Nov 2025 – Present
Founder & Solo Developer Remote
 - Architected and launched a privacy-first journaling SaaS, growing to 500+ Monthly Active Users (MAUs).
 - Engineered a subscription model with secure payment flows, acquiring 100+ paying customers.
 - Designed secure chunked storage using Prisma/PostgreSQL, and built automated data backup/export utilities.
- PSB SBI Finnovation Hackathon** 2026
Team Lead IIT Jodhpur
 - Secured Top 3 rank (exact rank to be announced) in the hackathon. Credential
 - Managed project scope, led the development of the prototype, and coordinated team presentation.
- Centre for Development of Advanced Computing (CDAC)** May 2024 – Jun 2024
Trainee – Ethical Hacking & Penetration Testing Noida, India
 - Conducted penetration testing and vulnerability assessments on Windows environments using industry-standard tools.
 - Performed reconnaissance, enumeration, and exploitation exercises to identify security weaknesses.
 - Documented security findings and collaborated with team on remediation strategies and secure coding practices.
- Samsung** September 2024
Team Lead – Samsung Innovation Hackathon Lucknow, India
 - Led a cross-functional team to develop and deliver a functional prototype under tight deadline constraints.
 - Managed technical planning, task distribution, and rapid problem-solving to ensure project completion.

PROJECTS

- Vesper – Campus Companion PWA** 2026
Next.js, React, TypeScript, Tailwind, PWA vesperapp.fun
 - Engineered a campus Progressive Web Application (PWA) centralizing utilities for 4,000+ students at IIT Jodhpur.
 - Consolidated academic timetables, mess menus, maps, and notices into an offline-capable, mobile-first interface.
- BunkYard – Campus Merchandise Platform** 2026
Next.js, Prisma, PostgreSQL bunkyard.me
 - Built a full-stack campus e-commerce store with product collections, shopping cart, and a secure checkout flow.
 - Developed a comprehensive admin dashboard for order processing and managed relational schemas with Prisma.
- MomentBoard – Memory Display SaaS** 2026
Next.js, Tailwind, WebSockets m.vesperapp.fun
 - Engineered a SaaS platform enabling event attendees to submit memories and photos for real-time display on large screens.
 - Implemented WebSocket-based real-time state synchronization and an intuitive moderation dashboard.
- 1Key – Ephemeral End-to-End Encrypted Messaging** 2026
Node.js, TypeScript, Web Crypto API 1key.uditc.me
 - Architected a privacy-first messaging platform with zero-identity login and E2EE using the Web Cryptography API.
 - Designed secure client-side key exchange and self-destructing states to guarantee absolute message confidentiality.
- NEXUS – Space Tech Society Platform** 2026
Next.js, Three.js, Tailwind nexus.vesperapp.fun
 - Designed an interactive platform for the Astronomy Society featuring 3D celestial visualizations and computational tools.
 - Integrated interactive celestial models using Three.js/WebGL to enhance user engagement.

PUBLICATIONS

- Optical-First ISAC Architectures: Hardware Enablers & 6G Standardization

2026

Author Advised by Project Guide

 View Publication

– Review paper investigating optical-domain ISAC, photonic hardware enablers, and B5G/6G standards.
- A Comprehensive Review of Wavelet-Based Image Compression Techniques

2025

Co-author

 View Publication

– Research paper investigating sub-band coding, wavelet transforms, and noise reduction algorithms.

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, JavaScript, TypeScript, HTML/CSS, SQL
- **Frameworks & Tools:** Next.js, React, Node.js, Flask, Django, REST APIs, Git/GitHub, PostgreSQL, Prisma, Tailwind CSS, PWA, Three.js, Arduino, Burp Suite, Nmap, Metasploit, IBM Watson Studio
- **Core Competencies:** Full-Stack Web Development, Ephemeral Cryptography, Penetration Testing, Vulnerability Assessment, IoT Systems, Microcontroller Programming, Data Structures & Algorithms, Machine Learning & Deep Learning, Computer Vision & NLP

CERTIFICATIONS

- Top 3 Rank – PSB SBI Finnovation Hackathon

Credential
- Artificial Intelligence Fundamentals – IBM SkillsBuild

Credential
- Windows Vulnerability & Security – CDAC Noida

Credential
- Python Development Certification
